

TRUE NORTH WHB LLC

Aircraft Compatibility & Fleet Placement Directory

True North Hangars provides premium spatial infrastructure engineered to a rigorous 140 MPH wind rating at Francis S. Gabreski Airport (KFOK). This directory serves as an illustrative reference for pilots and fleet managers to cross-reference factory aircraft specifications against our structural footprints.

DIRECTORY SCOPE NOTICE

This directory is not all-inclusive. It is intended as a general guide based on available factory specification data. If you do not see your specific aircraft model listed, it does not necessarily mean it will not fit. Please reach out to our team directly and we will be happy to confirm compatibility for your aircraft.

OPERATIONAL CLEARANCE & MODIFICATION NOTICE

All layout compatibilities listed are based strictly on standard, unmodified factory production dimensions. True North WHB, LLC does not guarantee or warrant a fit for any specific aircraft. Owners bear sole responsibility for verifying that aftermarket modifications (including winglets, upgraded avionics antennae, custom tail fins, or non-standard gear configurations) safely clear the physical hangar boundaries. Aircraft footprints and clear door spaces must be confirmed independently prior to execution of lease or acquisition placement.

STRUCTURAL SPECIFICATIONS & SPATIAL VERIFICATION MATRIX

METRIC CRITERIA	HANGAR 1 (OPTION ONE)	HANGAR 2 (OPTION TWO)
Total Footprint Area	3,575 sq. ft.	2,800 sq. ft.
Structural Boundaries	65' Wide x 55' Deep	50' Wide x 56' Deep
Clear Door Width	64' Maximum Clearance	49' Maximum Clearance
Clear Door Height	18' High Clear Bi-Fold	18' High Clear Bi-Fold
Construction Standard	Steel / 140 MPH Rated	Steel / 140 MPH Rated
Amenities	Private ADA Restroom Dedicated Wi-Fi Paved Apron Tie-Down	Private ADA Restroom Dedicated Wi-Fi Paved Apron Tie-Down

For complex multi-plane fleet arrays or specialized equipment configurations, please connect with our management team directly. Our engineering division compiles bespoke structural stacking layouts based on your customized specifications to confirm layout viability prior to acquisition.

SECTION 1

Universal Compatibility

FITS BOTH HANGAR 1 (OPTION ONE: 65' x 55') AND HANGAR 2 (OPTION TWO: 50' x 56')

The following aircraft feature factory footprints that are compatible with both the expansive Hangar 1 (Option One: 65' x 55') and the streamlined Hangar 2 (Option Two: 50' x 56') configurations. A total of 559 aircraft models are listed below, organized alphabetically by manufacturer. Models marked with * denote helicopter classification. This list may not be all-inclusive — if you do not see your model listed, please contact us directly to confirm compatibility.

* Denotes helicopter classification. All compatibilities based on standard unmodified factory dimensions. This list is intended as a guide and may not be all-inclusive. If your aircraft model does not appear above, please reach out to our team directly — it may still fit.

SECTION 2

Hangar 1 — Exclusive Fits

FITS HANGAR 1 (OPTION ONE: 65' x 55') ONLY — EXCEEDS HANGAR 2 CLEARANCE

The following aircraft are too large for Hangar 2 but are fully compatible with Hangar 1 (Option One: 65' x 55'). These models typically feature wider wingspans or greater overall footprints that exceed Hangar 2's 49' clear door width. A total of 49 models are listed below. This list may not be all-inclusive — if you do not see your model listed, please contact us directly to confirm compatibility.

All compatibilities based on standard unmodified factory dimensions. This list is intended as a guide and may not be all-inclusive. If your aircraft model does not appear above, please reach out to our team directly — it may still fit.

SECURE MULTI-AIRCRAFT

Fleet Disposition & Contact

If you intend to house complex multi-plane fleet arrays or specialized equipment configurations within a single hangar segment, please connect with our management team directly. Our engineering division compiles bespoke structural stacking layouts based on your customized specifications to confirm layout viability prior to acquisition.

Each private layout features dual walk-through doors, individual dedicated high-speed Wi-Fi connectivity, water, electric, and private ADA restrooms — built with precision steel construction and engineered to a rigorous 140 MPH wind rating.
